Portfolio: [Vignesh Kumar S — Full Stack & AI Engineer](#)

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience developing scalable full-stack web and desktop applications using React.js, Next.js, Node.js, FastAPI, Java, Python, and REST APIs. Built 5+ real-world projects involving authentication (JWT/RBAC), workflow automation, AI integrations, and database-driven applications using MongoDB and PostgreSQL. Proficient in Git, Docker, Linux, Postman, and modern AI-assisted development tools. Passionate about building reliable, high-performance software and solving real-world engineering problems.

EDUCATION

B.E Computer Science and Engineering | Sri Shakthi Institute of Engineering and Technology

2023 - 2027

CGPA: 8.1/10

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC, Webhooks, n8n

Databases: MongoDB, PostgreSQL, MySQL, SQLite

Developer Tools: Git, GitHub, Docker, Linux, Postman, VS Code, AWS

AI Tools: ChatGPT, GitHub Copilot, Cursor, Claude Code, OpenAI APIs

PROJECTS

- Interior Project Management Automation | React.js • FastAPI • PostgreSQL • n8n

Apr 2026

 - Developed 6+ responsive dashboard modules for enquiry tracking, approvals, task management, and project monitoring.
 - Automated 4 core business workflows using n8n and webhooks, reducing manual administrative effort.
- TaskFlow Desktop | Electron.js • React.js • Node.js • SQLite

Feb 2026

 - Implemented CRUD operations, search, filters, notifications, and offline data storage using SQLite.
 - Packaged the application with Electron Builder for cross-platform desktop deployment.
- Student Cloud Storage Platform | React.js • Node.js • Express.js • MongoDB

Dec 2025

 - Developed 8+ REST API endpoints for authentication, user management, and secure file operations.
 - Implemented JWT authentication and RBAC to support secure multi-user access.
- AI-Powered Phishing Detection System | React.js • Java • REST APIs

Mar 2025

 - Developed a phishing detection system that analyzes multiple URL characteristics including domain structure and suspicious patterns through REST API integration.
 - Published research in the International Journal of Engineering Inventions (2024).
- Automated Meeting Summary Extractor | Node.js • JavaScript • OpenAI Whisper API • LLMs

Dec 2024

 - Developed an AI-powered meeting summarization application using Node.js, JavaScript, OpenAI Whisper API, and LLMs to automate audio transcription and generate concise meeting summaries with action items.
 - Integrated AI APIs and built a modular backend workflow, reducing post-meeting documentation time by approximately 80% while ensuring reliable, scalable, and efficient text processing.

INTERNSHIP

- ILF Attorneys | Full-Stack Development

July 2025 - Sep 2025

 - Developed a responsive corporate website using React.js by building reusable UI components and modern frontend architecture.
 - Integrated frontend modules with backend REST APIs, collaborated using Git/GitHub, and supported deployment activities.
 - Improved application quality through debugging, functional testing, cross-browser compatibility testing, and performance optimization.

SOFT SKILLS

Analytical Thinking • Problem Solving • Communication • Team Collaboration • Adaptability • Attention to Detail

LANGUAGES

English • Tamil • Hindi (Basic Reading)
